OBJECTIVE

To work in pragmatic way in the organization where I can show my talent and enhance my skills to meet the organization goals along-with a passion to solve real-life problems and come up with effective solutions using my knowledge and available technologies.

PROJECTS

MEERA NOTES APP | [GITHUB](#)

- Developed web-based application for notes storing and sharing with others.
- Implemented user authentication and authorization with hashing algorithm for password for saving for secured access of notes.
- Design and implemented responsive interface to view notes on various devices.
- Users are able to like,watch and download other users notes.
- Tech stack - NodeJs,Express, MongoDB, Google-Auth,ExpressFileUpload, PassportJs,Bootstrap,Fontawesome
- Tech Tools-Visual Studio Code , Studio 3T

CONTACT MANAGER APP | [GITHUB](#) | [LIVE](#)

- A project to store and retrieve contact information of users.
- Design a well-structured interface to search and update contacts.
- Used RESTFUL APIs to perform CRUD operations on user data.
- Fetching data using APIs along with Redux for storage of contacts.
- Tech stack - ReactJs,Bootstrap,React-Redux,Material-UI,Toastify,React-Router-DOM
- Tech Tools-Visual Studio Code

WEB CHATTING APP | [GITHUB](#) | [LIVE](#)

- The Real-time Chatting application that allows users to communicate with each other through text.
- User can login and logout using gmail through Google-Auth System.
- Users can create rooms for discussions and search contacts in list.
- Users can send or receive messages with date and time in chat.
- Tech stack - ReactJs,Firebase,Google-Auth,Material-UI,Session-Storage, React-Router-DOM.
- Tech Tools-Visual Studio Code

SWASTHYA HEALTHCARE APP | [GITHUB](#)

- Developed personalized health assistant that aims to make managing your health and medical needs conveniently.
- Users data is authenticated using realtime database provided by firebase .
- Developed well-structured interface where users can buy medicines and can add it to medicines list.
- Implemented sorting logic to take medicines on latest time.
- Tech stack - ReactJs,React-Router-DOM,Firebase,Firestore,React-toastify,Lodash
- Tech Tools-Visual Studio Code

HABIT TRACKING APP | [GITHUB](#)

- Developed habit tracking application to define habits and track them.
- User can login and logout using gmail through both Manual and Google Authentication.
- Developed well-structured interface where user can set time to perform task .
- User can perform add and delete operations on habits
- Tech stack - NodeJs,MongoDB,Google-Auth,Passport.Js,Bcrypt.Js,Moment,SASS,EJS
- Tech Tools-Visual Studio Code,Studio 3T

ACHIEVEMENTS AND PUBLICATIONS

- First position in *Final Year Project Competition*,IoT Based Smart Air Purifier,2022 held at College.
- All India Rank Fifth position in *SAE BAJA Competition*, 2021 held at Chitkara University. [CERTIFICATE](#)
- Published Edition- Design and Fabrication of IoT Enabled Air Purification System,(IJARSCT,Volume 2,Issued on 5 May 2022). [CERTIFICATE](#)
